## Dimebag Darrell's Trick Bag

UNIT 2 • LESSON 8 << PREVIOUS NEXT >>

Lesson notes Diagrams

### Whammy Bar Fun

Using the whammy bar is a massive part of the Dimebag sound, and an especially common thing to hear is natural harmonics with crazy whammy fun. So, where do we find these harmonics? Well, some of the most common places are shown on the fretboard below. Some are harder to find than others, but Dion guides you through it in the video! A very cool tip is that you **can often find two different harmonics on one fret**. *Try the 4th fret, G string in the first half and second half of the fret...* How cool is that? You can find more harmonics than shown in the fretboard diagram, but these are common places to find them!
