"Rock & Rock"

The solo is a classic mix of major and minor pentatonic, just as you would hear classic blues players use, but played at 100mph! We are also making use of chromatic ideas to lead into different areas of the neck, another technique that Jimmy Page makes regular use of in structuring his solos. Watch the video a few times to try and get the solo in your head, then move onto the next lesson where we'll check out the first two licks in detail.

UNIT 1

Rock & Rock

 0% ^

We kick off our Jimmy Page course with a super quick rock and roll solo that oozes technique and creativity. The licks are quick and there are very few breaks for air, so we will take time to break down each lick and explain what's going on theory wise.
