The Bridge & Structure

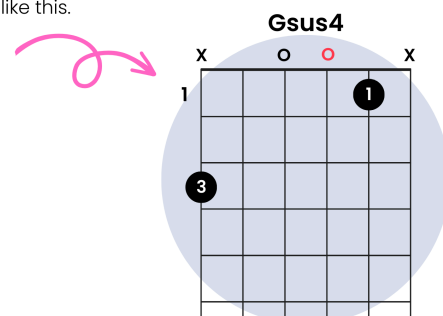

Let's take the time now to get this whole structure together! Here is that full structure.

The Bridge

```

| Dm | Dm | Em | E |
| Am | Gsus4 | F | F |
| Dm | Dm | Em | E |
| F | F | G | G |
  
```

The only chord here you may not know is the Gsus4, which looks like this.

We're now going to take a deep dive into the final style of rhythm and groove that Ed is famous for.

Lessons:

- The Core Groove
- The Intro & Verse
- The Pre-Chorus
- The Chorus
- The Bridge & Structure

Finally we can talk about the structure of the whole song, and start to put it all together! We have a lot of cool parts here, and our job as musicians is to try and blend them all together as seamlessly as possible. Don't forget to use dynamics in your strumming to outline different sections. For example, in the verse really bring the volume down whilst maintaining the groove, and then as you build towards the chorus, start to raise up that volume and intensity. Let's dive into the actual structure now:

The first chorus is a half chorus, and it looks like this:
