section A

In section B we kick off with some very cool melodic lines between chords. We are essentially using the progression:

| Bbadd9 | Gadd9 | D5 |

As we roll through each of those chords we introduce some cool lead/rhythm lines based around our D minor scales, once again sticking to that overall key. We still very much outline the chord changes but come back to the basic notes of the key to formulate some cool melodic lines. This breaks up the sound before coming back to that low string "chug" that sounds so huge!
