Lesson notes Diagrams

Major Chords

In this lesson we will be learning the 3 BIG major chords! These are some of the most played and used chord shapes on the planet, and we'll break each one down in this video lesson. Use these reference the shapes as you gradually commit them to memory:

The red notes in these chord boxes are the root notes of the chord. There are actually three notes in the **major chord triad, the root, 3rd and 5th**. Now, at this point we don't need to worry too much about that, just simply get to know where that root note is, as that is. the most important element of the chord.

Practice routine update...

Now, before we end this unit, let's just check out our practice routine. The guitar gym section now has

more to it, so we've increased it a bit! Here we have it.

Take your time with the new practice of the major chords. You can even add a strumming pattern in if you feel so bold! Enjoy this new challenge, embrace it, and we'll see you in the next lesson.
