5 Shape Exercise

To put our 5 shapes into practice, we will use this fun exercise! Remember to visualise the shapes as you go through the exercise and try to keep up with the beat. By playing along with the beat, you will learn the shapes more quickly and more completely. Here is that exercise:

We will be covering a lot of ground to make sure you are up to speed for intermediate guitar playing but our main focus will be looking at the 5 shapes of the pentatonic scale and how to move them into various different keys.

Lessons:

- Pentatonic Shape 1-3
- Pentatonic Shape 4-5
- 5 Shape Exercise
- The Airports Theory
- Improvising Test

Pretty colourful right? 😊🎸 The colour coding is simply to help you see clearly when one pentatonic shape starts and ends.

You can also use the interactive tab alongside this, to actually play along with the tab and keep the beat at the same time. Work through this lesson until you know the exercise well, and have added it to your daily guitar gym work. Then we'll see you in the next lesson.
