We've Done It!

I want you guys to give yourself an enormous pat on the back for getting this far! If you've been through all 3 courses then you now have all the tools you need to go out into the world, guitar in hand, and be the blues player you want to be. Now it's all about letting it sit, develop and gradually form into your own style and playing. In this lesson, I spend the time developing the track with some extra CAGED chords and developing the lead playing.

"don't over-complicate the lead. In this track, the chords do the work for you. Stick to a few simple ideas, and let it breathe!"

And there we have it guys! You've completed our Blues Essentials Level 3 course. Make sure that all the tracks from Essentials 1, 2 and 3 are sitting somewhere easy to access so that you can continue to learn and refine those skills. Also, please do get in touch to let us know how you're getting on with the course, and how your blues playing has now
