## The chart

As for the chord chart here, it looks like this:

| E5 | D5 | A | A5 B5 | (x2)

To construct the whole song you simply need to play the Verse followed by the chorus 4 times round and voila, you have the whole piece! Don't forget how to end it either, with that E5 hit twice to give a big old full stop in the track.

“

So, you now have two really cool riffs

to work  
with  
before  
moving  
onto the  
next unit.  
Please  
take your  
time with  
these, as  
there is  
no rush. I  
would like  
you to be  
able to  
play them  
along to  
the song  
before  
moving  
on.
