Lesson notes Diagrams

A String Powerchords

Next up, we will look at the A string shape for the powerchords. The shape is exactly the same as the first one, with the only difference being that it starts on the A string. This means that you need to be careful and block the low E string with the top of your first finger to stop it from ringing out. The chord shapes can be found in the fretboard diagrams.

Finding the chords...

The great thing about this shape is that you can move it up and down the fretboard to get different powerchords. All you need to know are the notes on the A string. Here are three examples of the chord
