### "Why Did You Think I Wasn't?"

Ok so your first job is easy, just watch the video!

There is a lot going on in this rock blues track so you need to be able to sing or hum the melody line and have a good idea of the structure. I play through the riff twice in all, but please watch the video as many times as you need to absorb the track and then move onto the next video where we will start breaking it down.

We will now be looking at John's more bluesy guitar playing. The album 'Trio' is a masterpiece of bass, drum and guitar playing, and John really let's his inner blues come out! We single out how he combines big SRV style riffs with quick Hendrix licks!
