## Getting Ready

UNIT 6 • **LESSON 5** << PREVIOUS

### Practice Routine

Here we are guys! At the end of our first 30 day journey together, and this is just the start. One phrase that has always helped our students is...

“

"It's all about the journey, not the destination"

Dan

”

This is important to bear in mind as you show up everyday to practice! **Also, be sure to acknowledge your wins!** When you can play along to these 2 songs, that's a pretty epic win (actually two epic wins)! So, our last task is to get together your up to date practice plan to go away with before you move onto the next course on our site. Here's how it looked on the video:

You've made it to the final unit! In this last group of lessons we will be filling in some gaps, and making sure everything is sticking in your memory. We'll throw in a couple of important new chords too for good measure.

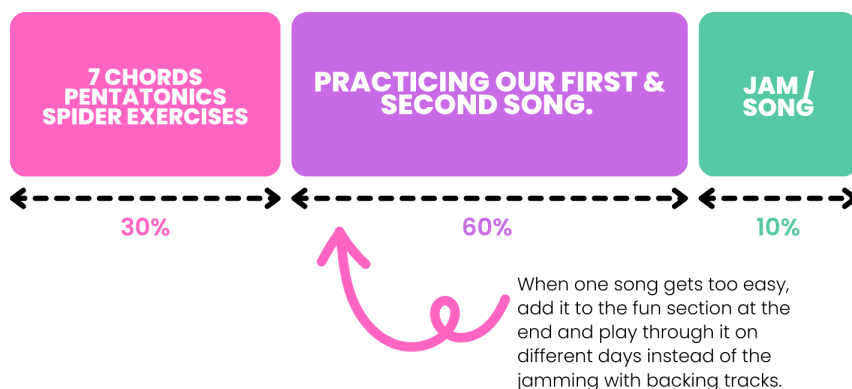

Lessons:

- Minor Chord theory
- New Chords
- Swung Vs Straight
- Chord Challenge
- Practice Routine

This is of course just a guide, and you can come up with your own practice routine if you like!

As we've spoken about all the way through the course, we divide the practice into 3 sections: **"GYM"**, **"MUSICAL"** & **"FUN"**. Let's draw that out using the format we've been working with below.

## And there we have it!

Massive congrats on getting through the entire course. Get down to some serious practice over the next few weeks, and when you are ready (when both songs are learnt) you can move on to the next course. I would recommend working through your pathway on the Club as it will guide you through the next set of courses!
