Joy To The World Blues Style

UNIT 6 • **LESSON 1** [« PREVIOUS](#) [NEXT »](#)

Intro & Tone

This track has such a naturally upbeat and uplifting feel to it, that we wanted to try it with an upbeat blues shuffle! We think it worked beautifully and allowed us to have a bit of fun with the main melody, adding in a variety of cool blues licks around the core notes. As the rhythm part, we've taken the core chords and made them dominant style chords, to give it that extra bluesy feel! Let's start with the tone.

FENDER HOT ROD DEVILLE 410

The base of our tone is using a Fender Hot Rod DeVille 410 style preset in TONEX by IK Multimedia. The setting shown above are for the lead guitar part, as we are driving the gain channel pretty much to 10.

We're also using a Logic digital delay pedal, with the settings shown above. For the rhythm, we simply remove the delay and roll the gain back to 12 o'clock. We also have compression and reverb as shown below.

HUTCHINS REGAL

This is a pretty quirky guitar, and you can definitely get a similar tone using any semi hollow body guitar. For the rhythm we're using the neck pickup, and for the lead we're switching to the bridge pickup (we think... The controls are pretty nuts on this thing!)
